

Huawei Enterprise to Demonstrate Container Data Center at CeBIT 2012

Gurgaon, Wednesday, 29st, February, 2012: Aiming towards providing better value for its enterprise set of customers focus, Huawei Enterprise, a global ICT solutions provider is demonstrating container data center solution at CeBIT – one of the biggest global ICT, exposition happening at Germany's Hanover between 6th and 10th March, 2012. This Huawei Enterprise container data center demonstration will happen outside Hall 13/12.

Bringing unique flexibility of operations and faster return on investment opportunity for enterprise customers, Huawei's Container Data Center solution presents an ideal opportunity for enterprise customers to reduce on their CapEx and OpEx while at the same time optimize on the data center capabilities.

"Today's enterprise customers are looking at future-ready IT solutions and this concept of Container Data Center is quite unique and futuristically placed to help them gain on that much needed flexibility and is immensely beneficial for the enterprise customers. As part of this container data center, an enterprise customer gets complete package of centralized power supply, environment security monitoring and remote control of container environment. This way enterprise gains on the flexibility and increases on its performance," explains, Eric Yu, President, Huawei Enterprise.

At a time when a number of enterprise IT decision makers in segments such as manufacturing, ITES, healthcare, or telecom are looking at increasing their operating efficiencies at multiple levels, container data center solution is ideally poised to help enterprise gain more from their IT investments.

As part of this participation, Huawei Enterprise is set to showcase its horizontal solutions of Cloud Computing, Telepresence, Enterprise Network solutions and vertical solutions comprising of Intelligent Video Surveillance, eEducation, Remote Banking, Smart Governance, Intelligent Transport System and Smart Grid solutions.

Spread across an extensive 1000 square meter space, Huawei Enterprise CeBIT showcase is based at Hall 13, C23 which will deliver an ideal opportunity for enterprise customers to experience next generation ICT capabilities in a better way.

About Huawei

Huawei is a leading global information and communications technology (ICT) solutions provider.
